

DiVinciPay, Corp.

a Customer Centric Value/Data Utility Token for discounted subscriptions in the DiVinciPay ecosystem

DVNCI WHITE PAPER

Social Media

INTRODUCTION

DiVinciPay Token

DVNCI

DiVinciPay (**DVNCI**) is an ERC-20 Token developed on the Ethereum Network. **DVNCI** is the native token used by DiVinciPay merchants. DiVinciPay merchants use the **DVNCI** token to pay their invoices for DiVinciPay subscription services. By using DVNCI, they receive an immediate discount of 20% on subscriptions services.

RECENT ACTIVITY

DVNCI ROAD MAP

Phase 1

1/1/2023

- Defined the DiVinciPay features for mass adoption.
- Developed Web3 site integration plugin with MetaMask and called it DivinciPay.com
- Design data driven bots for merchants and consumers.
- Tested phase 1 of the DiVinciPay plugin for DYI websites.

Phase 2

Q4 2023

- Developed DVNCI Token
- Initial Mint of the DVNCI Token.
- Launch plugin for WIX and Wordpress online stores
- Onboard first 10,000 merchants
- Adding DVNCI as the native token for DiVinciPay Web3 apps
- Listing DVNCI on Dex-Trade. Listing DVNCI on Coingecko and Coinmarketcap
- Roll our web injected functions with DVNCI on Metamask
- Grow our members to 50,000 members

Phase 3

Q2 2024

- Geo App on iTunes and Google Play for consumers to locate merchants that accept DiVinciPay
- Roll out Web3 Merchant Processing
- Grow primary wallet base to 10,000
- Grow our membership to 100,000 members
- Grow our B2B membership from 100,000 to 1 million businesses

HOW DIVINCIPAY WORKS

Item 1

Simple and Transparent Pricing

No contracts, No surprise fees.

Monthly Yearly

INVOICE ONLY

Create Unlimited Invoices

\$5.99 per month

[Subscribe](#)

This includes:

- Create Unlimited Invoices
- Accept Payments Using: All Tokens Supported By DiVinciPay
- Perfect for all businesses, consumers with side hustles and freelancers
- Priority Customer Support

STABLE

Accept Payments in USDT, USDC, PYUSD and DVNCI

\$20 per month

[Subscribe](#)

This includes:

- 1 Wordpress Website Install
- 1 WIX Website Install
- Accept Payments Using: USDT, DVNCI, USDC and PYUSD Tokens
- Priority Customer Support

Recommended

PROFESSIONAL

Perfect for a medium sized business.

\$99 per month

PERMISSIONLESS/NON-CUSTODIAL PLATFORM

DiVinciPay, is a Permissionless and Non-Custodial platform. The main differences between custodial and non-custodial platforms, is custodial platforms connected to a wallet, giving that platform permission to hold their private keys, whereas wallets connected to non-custodial platform, like DiVinciPay, gives no sovereign control of a person's private keys.

DiVinciPay Non-Custodial Features:

1. **Full Control Over Assets:** Users have direct control over their funds through their private keys. There is no intermediary holding the funds, reducing the risk of company insolvency or custodial mismanagement.
2. **Reduced Counterparty Risk:** Since there's no third party involved in holding the funds, the risk associated with the third party's security breaches is eliminated.
3. **Lesser Target for Hackers:** Non-custodial platforms are not centralized repositories of funds, hence they're typically less attractive to hackers compared to custodial services which can hold large sums of assets.
4. **Immutable Transactions:** Transactions on non-custodial platforms are recorded on the blockchain and are immutable once confirmed, reducing fraud and error.
5. **Privacy:** Users can interact with non-custodial platforms without having to provide personal information, enhancing privacy.
6. **Security Protocols in User Hands:** Users can implement their own security measures, such as hardware wallets and multi-signature protocols, without relying on the security practices of a third party.

HOW DOES THE DVNCI LP FUNCTION WORK

DVNCI token liquidity is infused into its Uniswap Liquidity Pool (LP) and CEX listing Order Books, from merchant purchases of discounted membership subscriptions, a percentage of partnership revenue, a percentage of in-house application revenue and transaction revenue.

When using the DVNCI token, merchants receive an immediate discount of 20% on subscriptions services as defined above.

Splits to DiVinciPay:

		Invoice	Stable	Professional	Enterprise
Subscriptions	50% of all fees	\$ 5.99	\$ 20.00	\$ 99.00	\$ 299.00
Vendasta	50% of all fees	\$ 4.19	\$ 14.00	\$ 69.30	\$ 209.30
WIX	50% of all fees	\$ 4.19			
GivBux	50% of all fees				
ISO	25% of all fees				

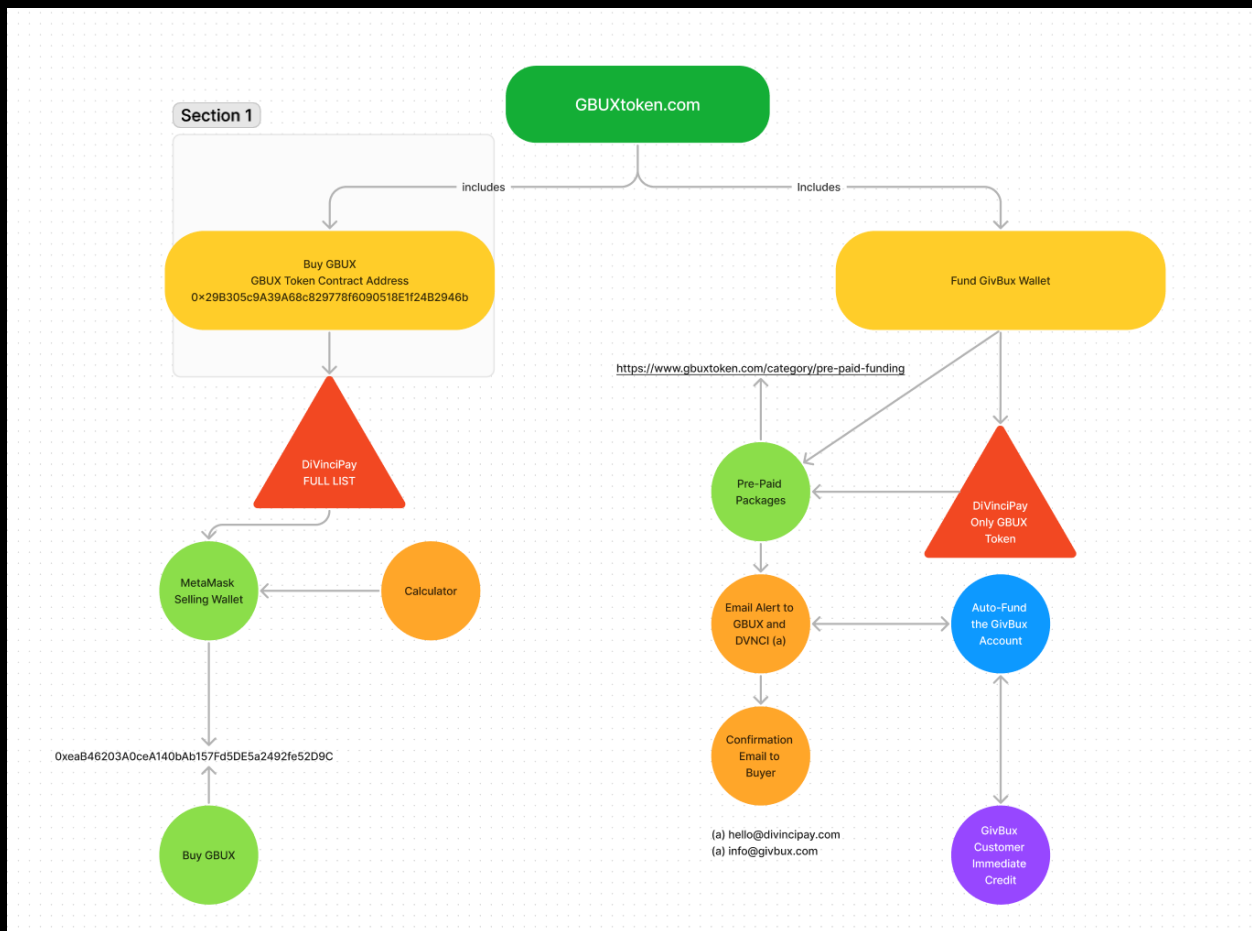

It is the intention of DiVinciPay to take a minimum of 25% of the revenue generated from the above projects and add it directly to the DiVinciPay Uniswap LP. These payments will be made within 7-days of receipt of cleared funds into the DiVinciPay corporate bank account(s). As DiVinciPay continues to establish emerging partnerships, we will continue to add to the DiVinciPay Uniswap LP, under the same calculations.

DiVinciPay Corp. is planning on reinstating the DiVinciPay Uniswap LP on or before March 31, 2024.

GIVBUX GATEWAY PARTNERSHIP

DiVinciPay, has entered into a strategic partnership with Web3 Marketing, Inc., which is a majority owned subsidiary of GivBux Corp. GivBux has developed and operates a super app, that allows users to purchase goods and services at over 400,000 US merchants and earn both cash back while donating to their favorite charities. DiVinciPay, earns a fee for every user that loads their GivBux wallet using the GBUX token. Approximately 50% of the fee earned, will be directly applied to the DVNCI Uniswap LP. List of merchants <https://givbux.com/merchants/>

How it Works:

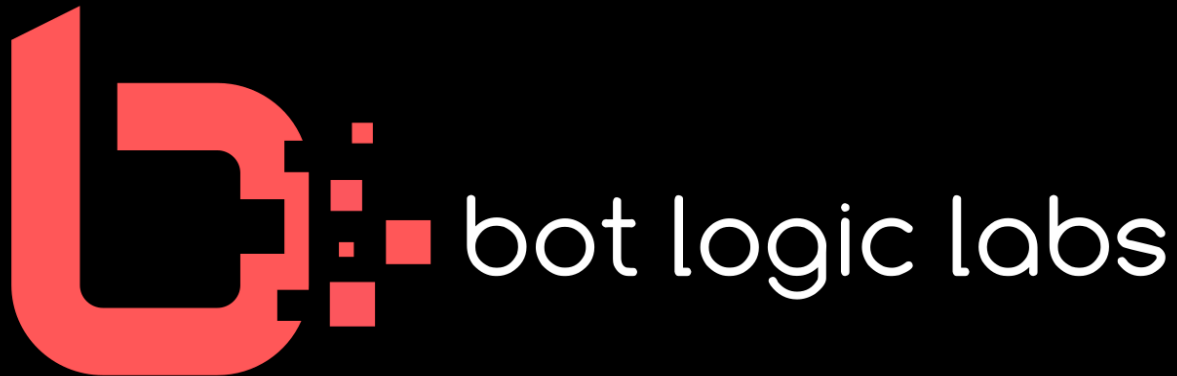

DIVINCIPAY ACHIEVEMENTS

- Wix Plugin Launch
- Wordpress Plugin Launch
- Custom Install Launch (Shopify, Facebook Marketplace, TikTok Shop, Telegram, Discord, Slack and more)
-
- API Integration for POS
- Invoice/QR Launch
- Migration from WIX hosting to Vercel Custom Code. New Merchant UI/UX and Admin UI/UX.
- Vendasta Integration Partnership. This gives us access to over 60,000 Agencies and over 6 million merchants globally.
- GivBux custom DiVinciPay gateway. This gives us access to over 7 million customers and over 400,000 merchants in the USA.

ABOUT OUR CREATORS

Bot Logic Labs, Inc.

BOT LOGIC LABS:

Bot Logic Labs offers a multitude of services including web, app, DApp and multi-facet database design. When paired with our Direct-to-Consumer algorithm, and combined with our proprietary digital network access (DNA), our clients realize a much higher success rate through our cutting edge targeted marketing.

Bot Logic Labs has established a reputation for building disruption within the industries we've identified as emerging opportunities. This disruption opens up new revenue streams for projects that have limited budgets or have been forced to bootstrap initial operations. Since bootstrapping operating costs oftentimes leads to project failure, we have designed our internal modeling to identify these opportunities before they fail. Provided the project meets with our proprietary criteria, we will provide the project funding, technology development, and product marketing to achieve the project's success.
